

A changing MCS

The new MCS

New team and new brand, aligned to a new mission

To give people confidence in low-carbon energy technology by defining, maintaining and improving quality.

MCS today

Relevance of MCS

Standards of value

A recognisable Certification Mark
consumers can trust

Demonstrating quality and setting the
benchmark

Your route to market

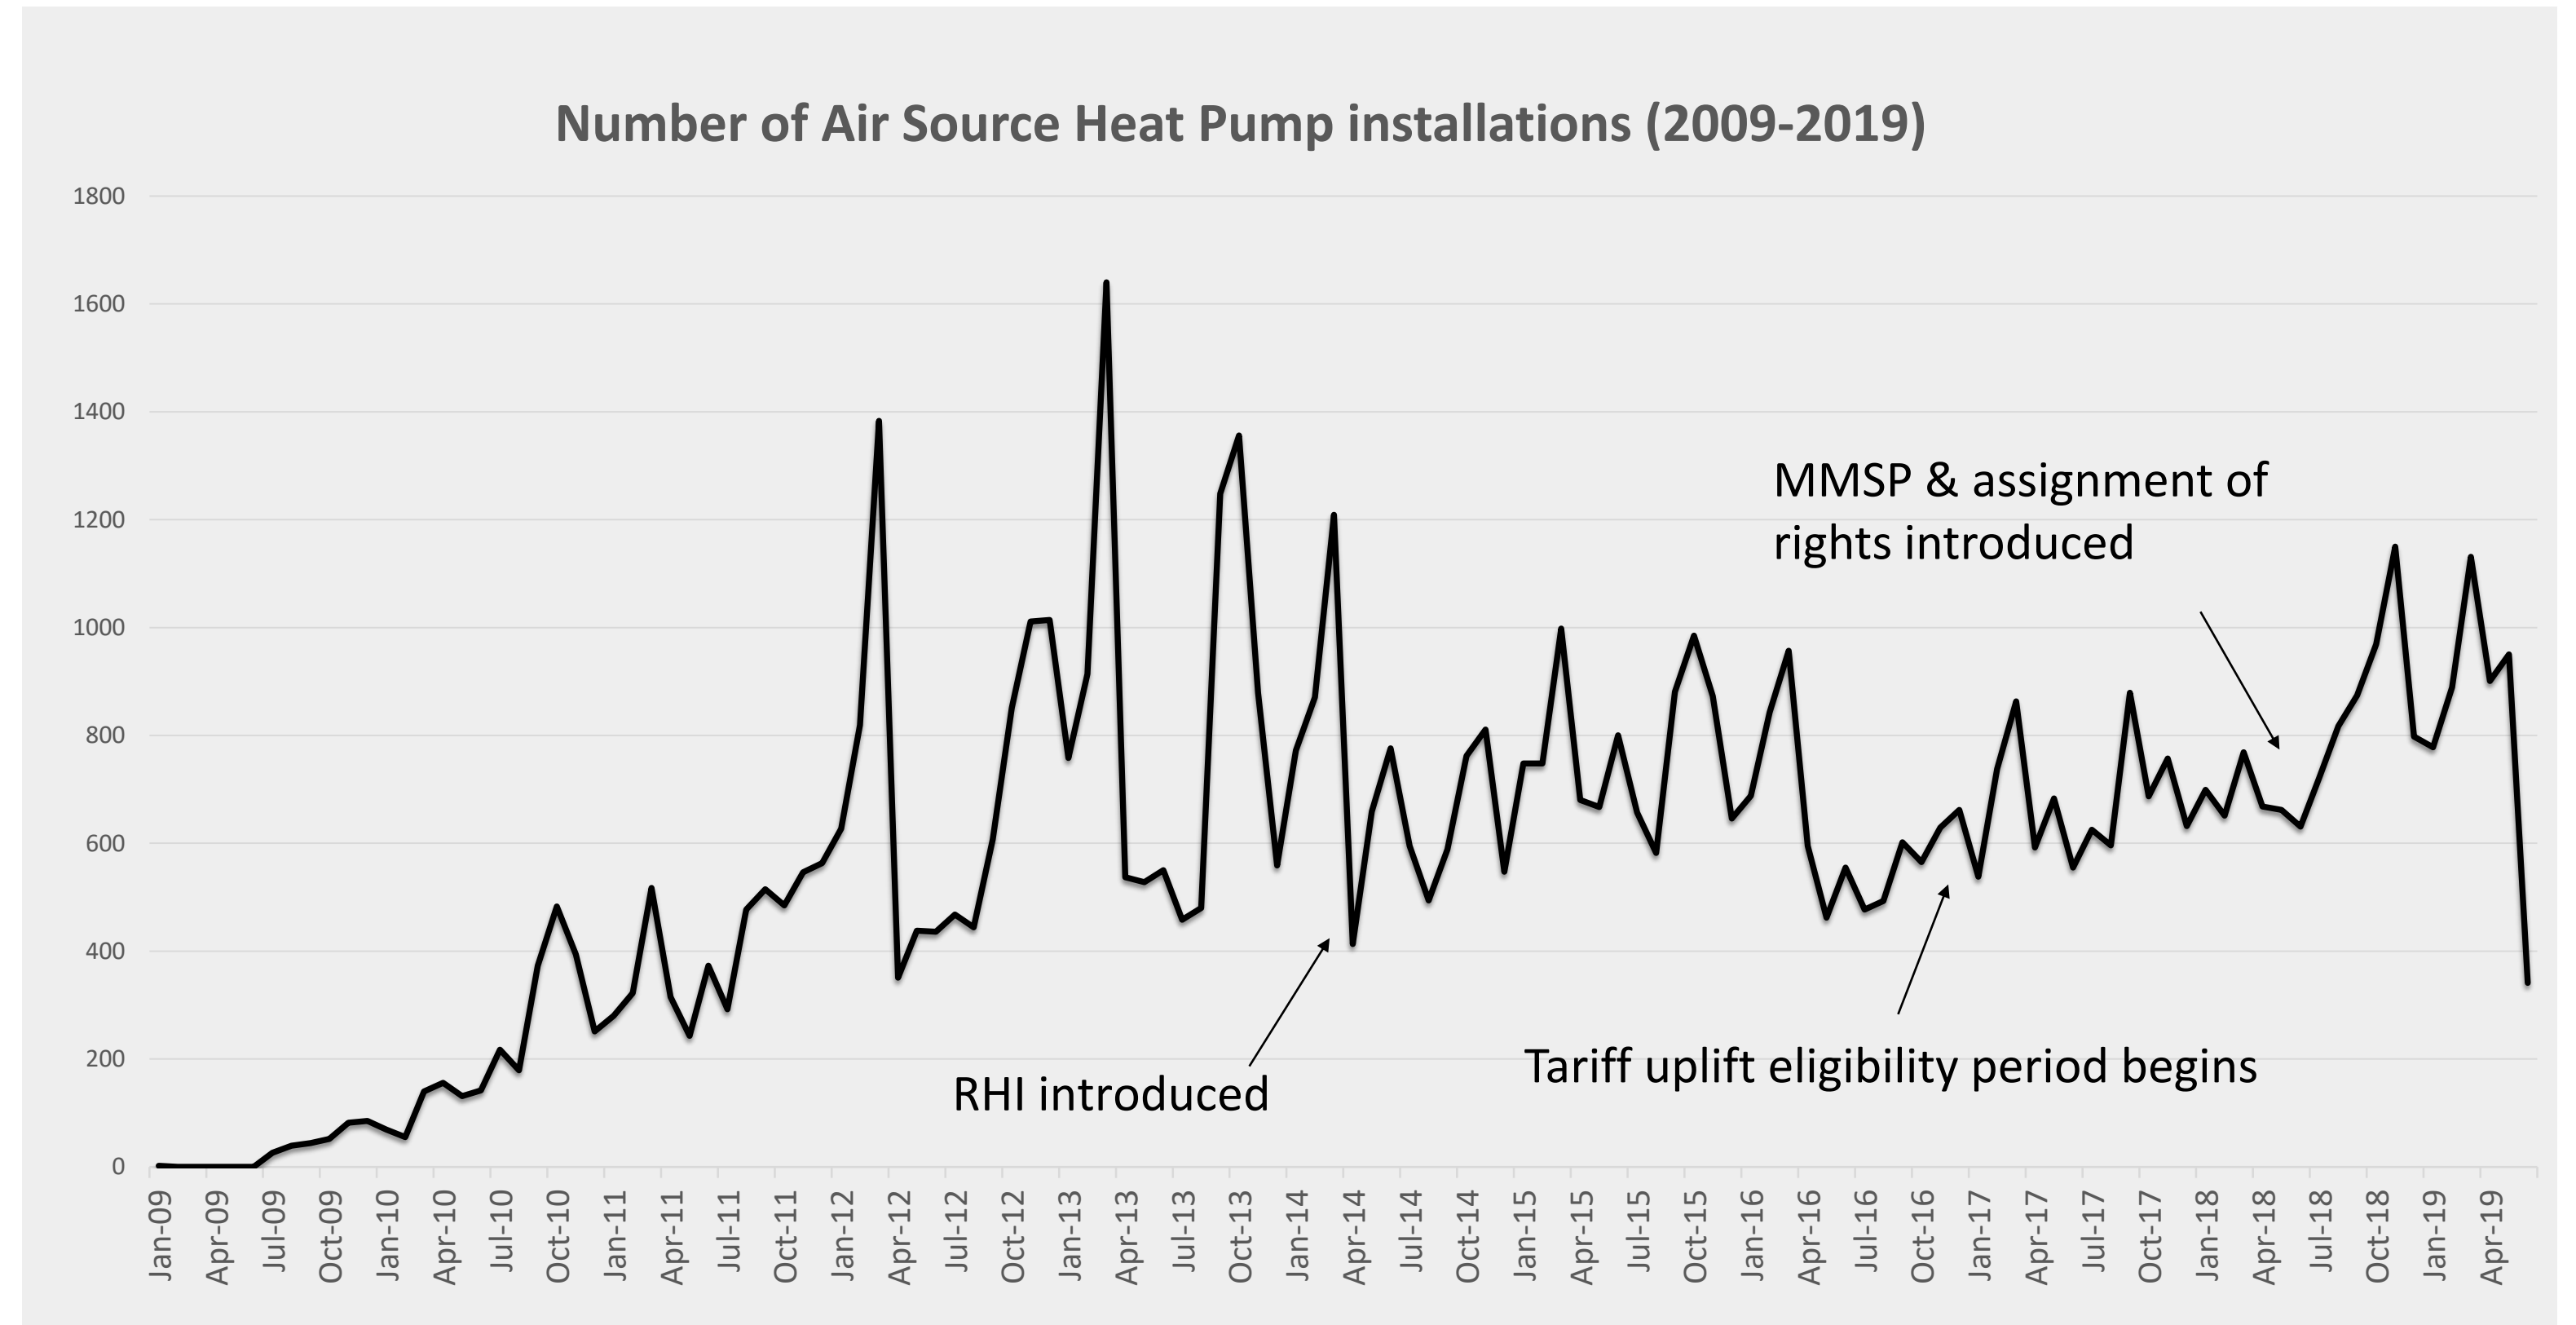

State of UK small-scale renewables

Report now in development

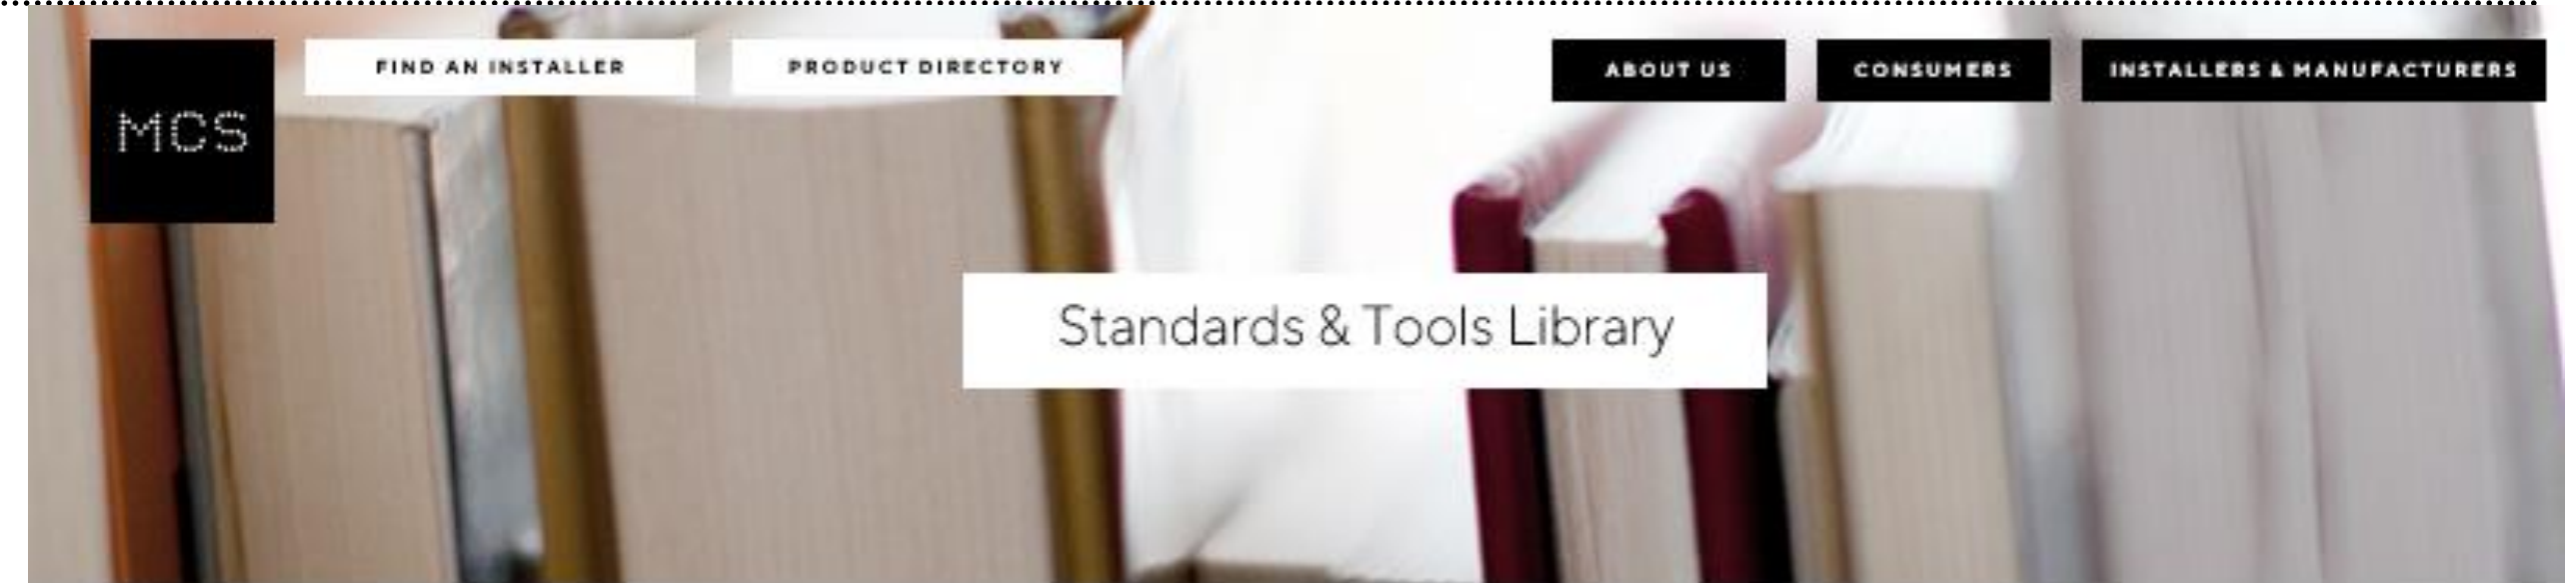

Initial analysis complete

'Data Mining' begins

RENEWABLE HEAT INCENTIVE

MCS Standards community

Streamlining the process

new change process and terms of reference

Working Groups

annual workplans

Funding changes

MCS Associates scheme

General Scheme Requirements

Supplementary Scheme Documents

Biomass Systems

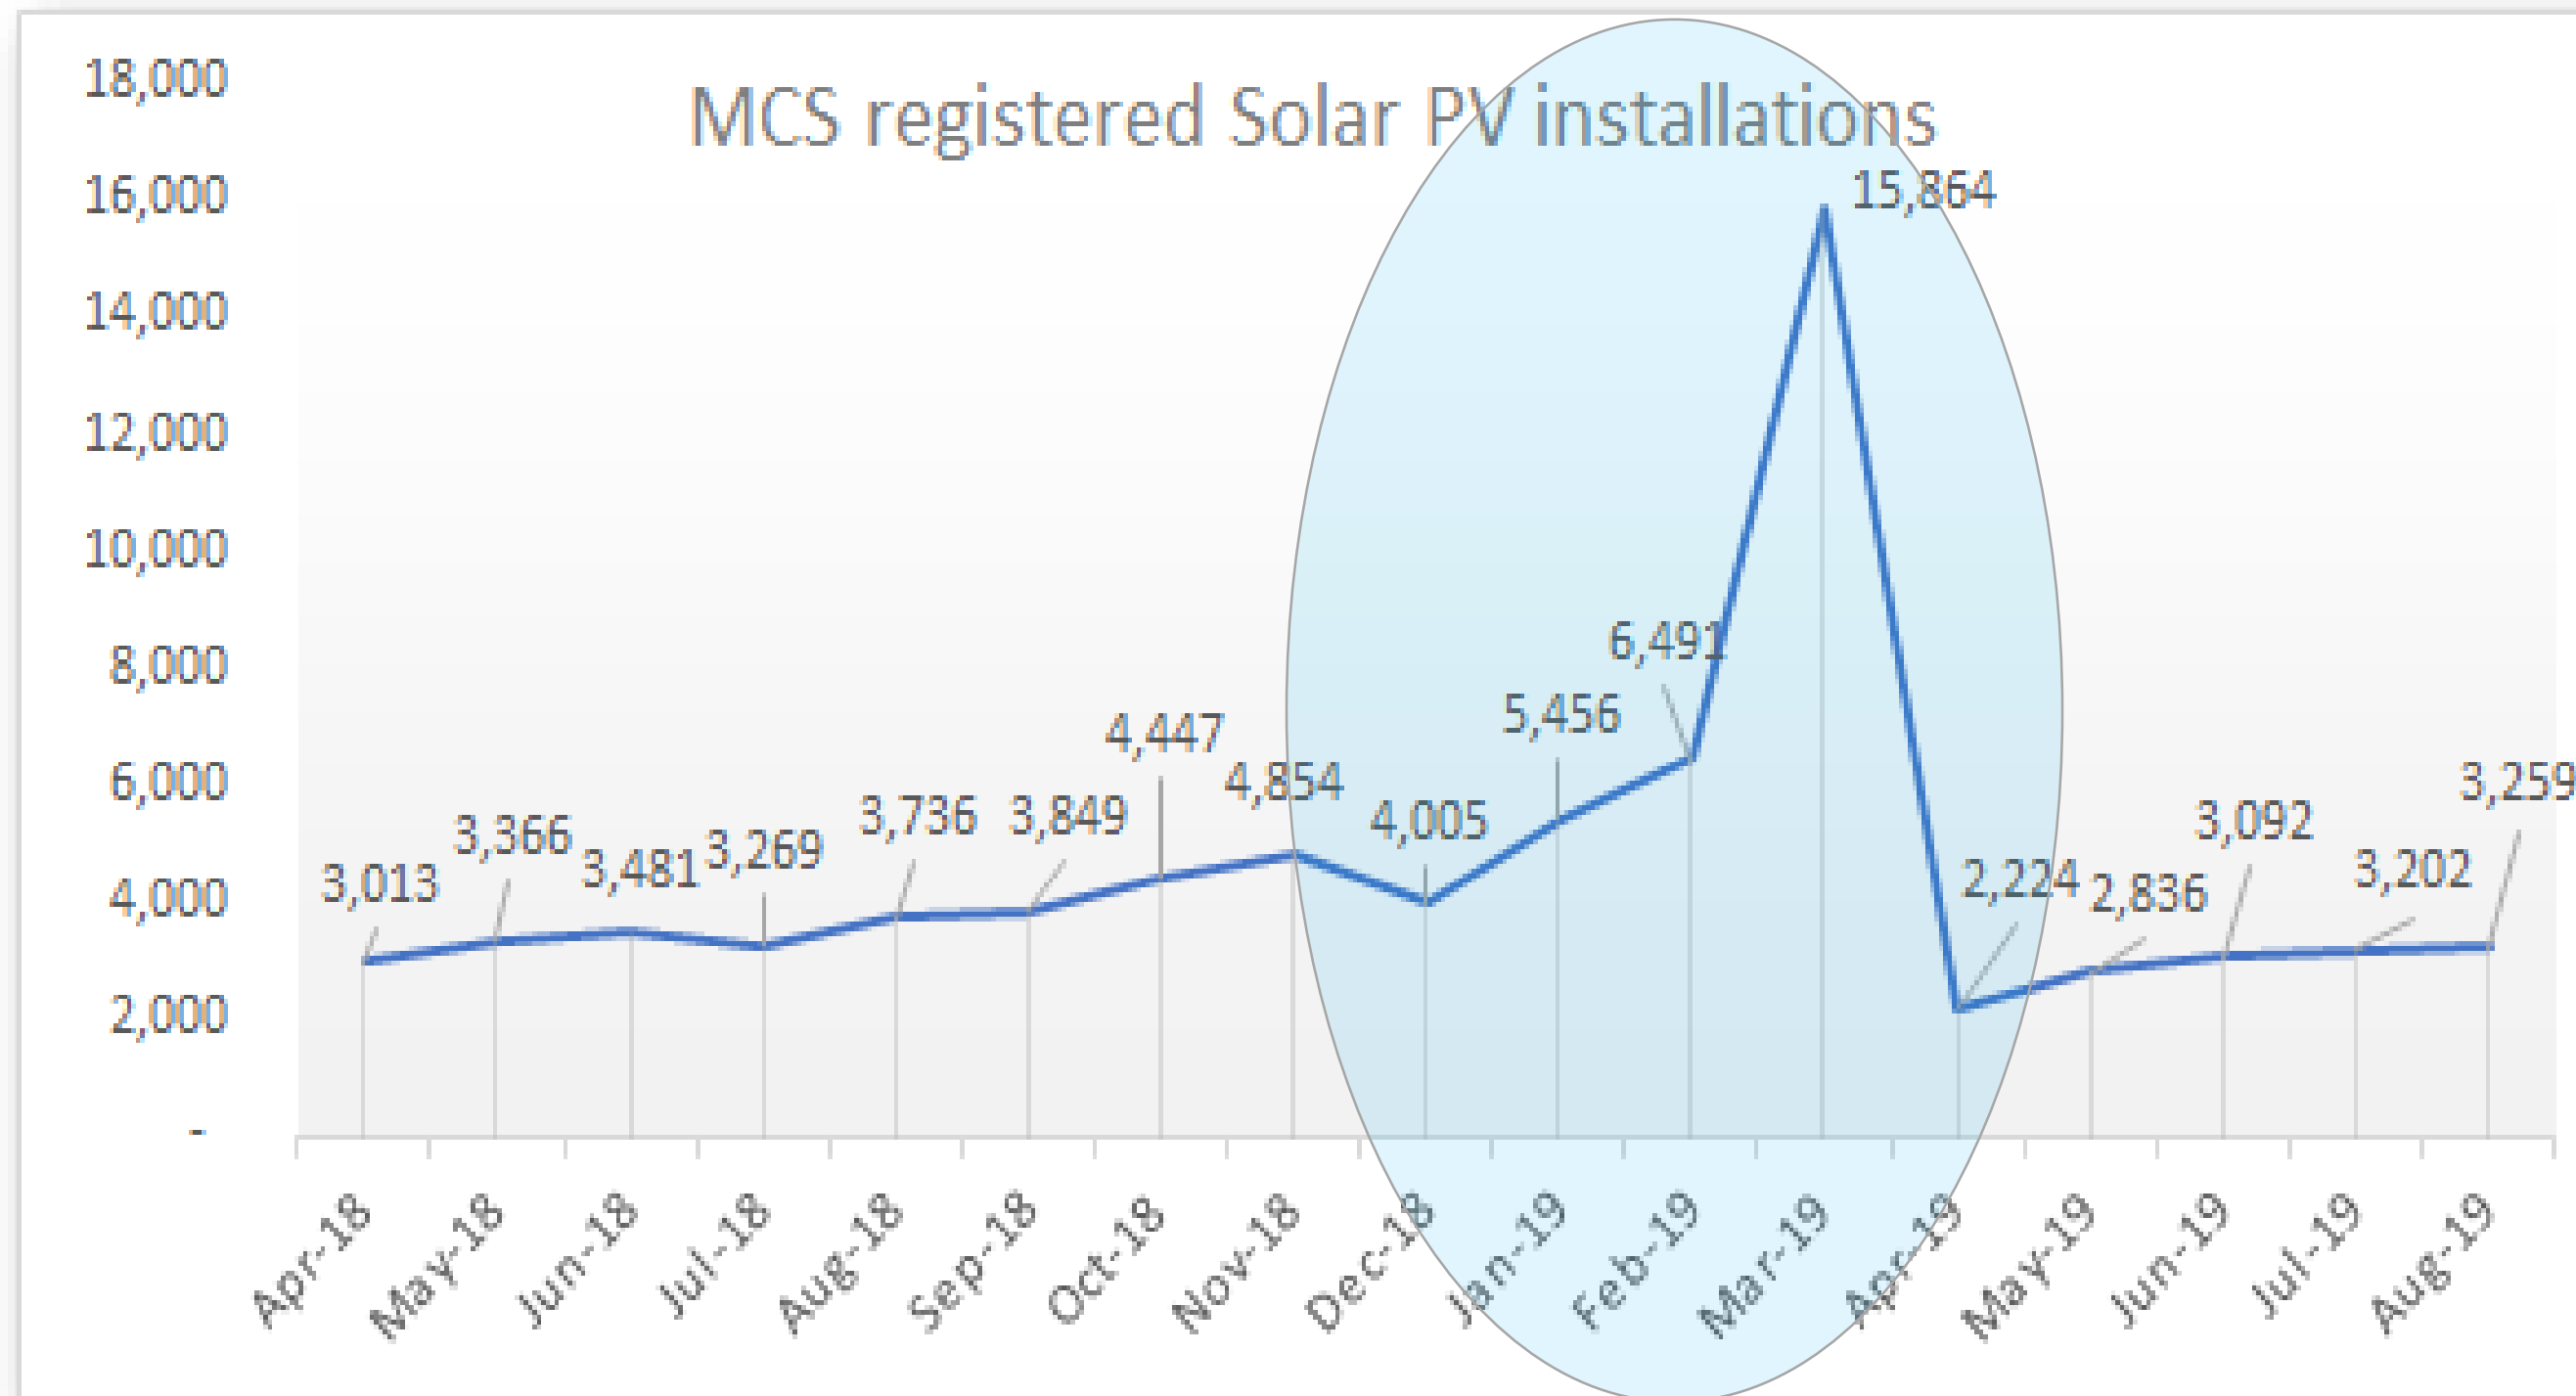

Heat Pumps

MCS Reference	Description	Version Number	Issue Date
MIS 3005	Requirements for MCS contractors undertaking the supply, design, installation, set to work, commissioning and handover of microgeneration heat pump systems	5.0	28.04.2017
MGD 002	Guidance for MIS 3005	1.3	22.07.2013
	FAQs for MCS 007 v5.0 & MIS 3005 v4.3	1.1	

RHI the learning from FiT

Better communications

support for installers
education for consumers

Coordination with Ofgem

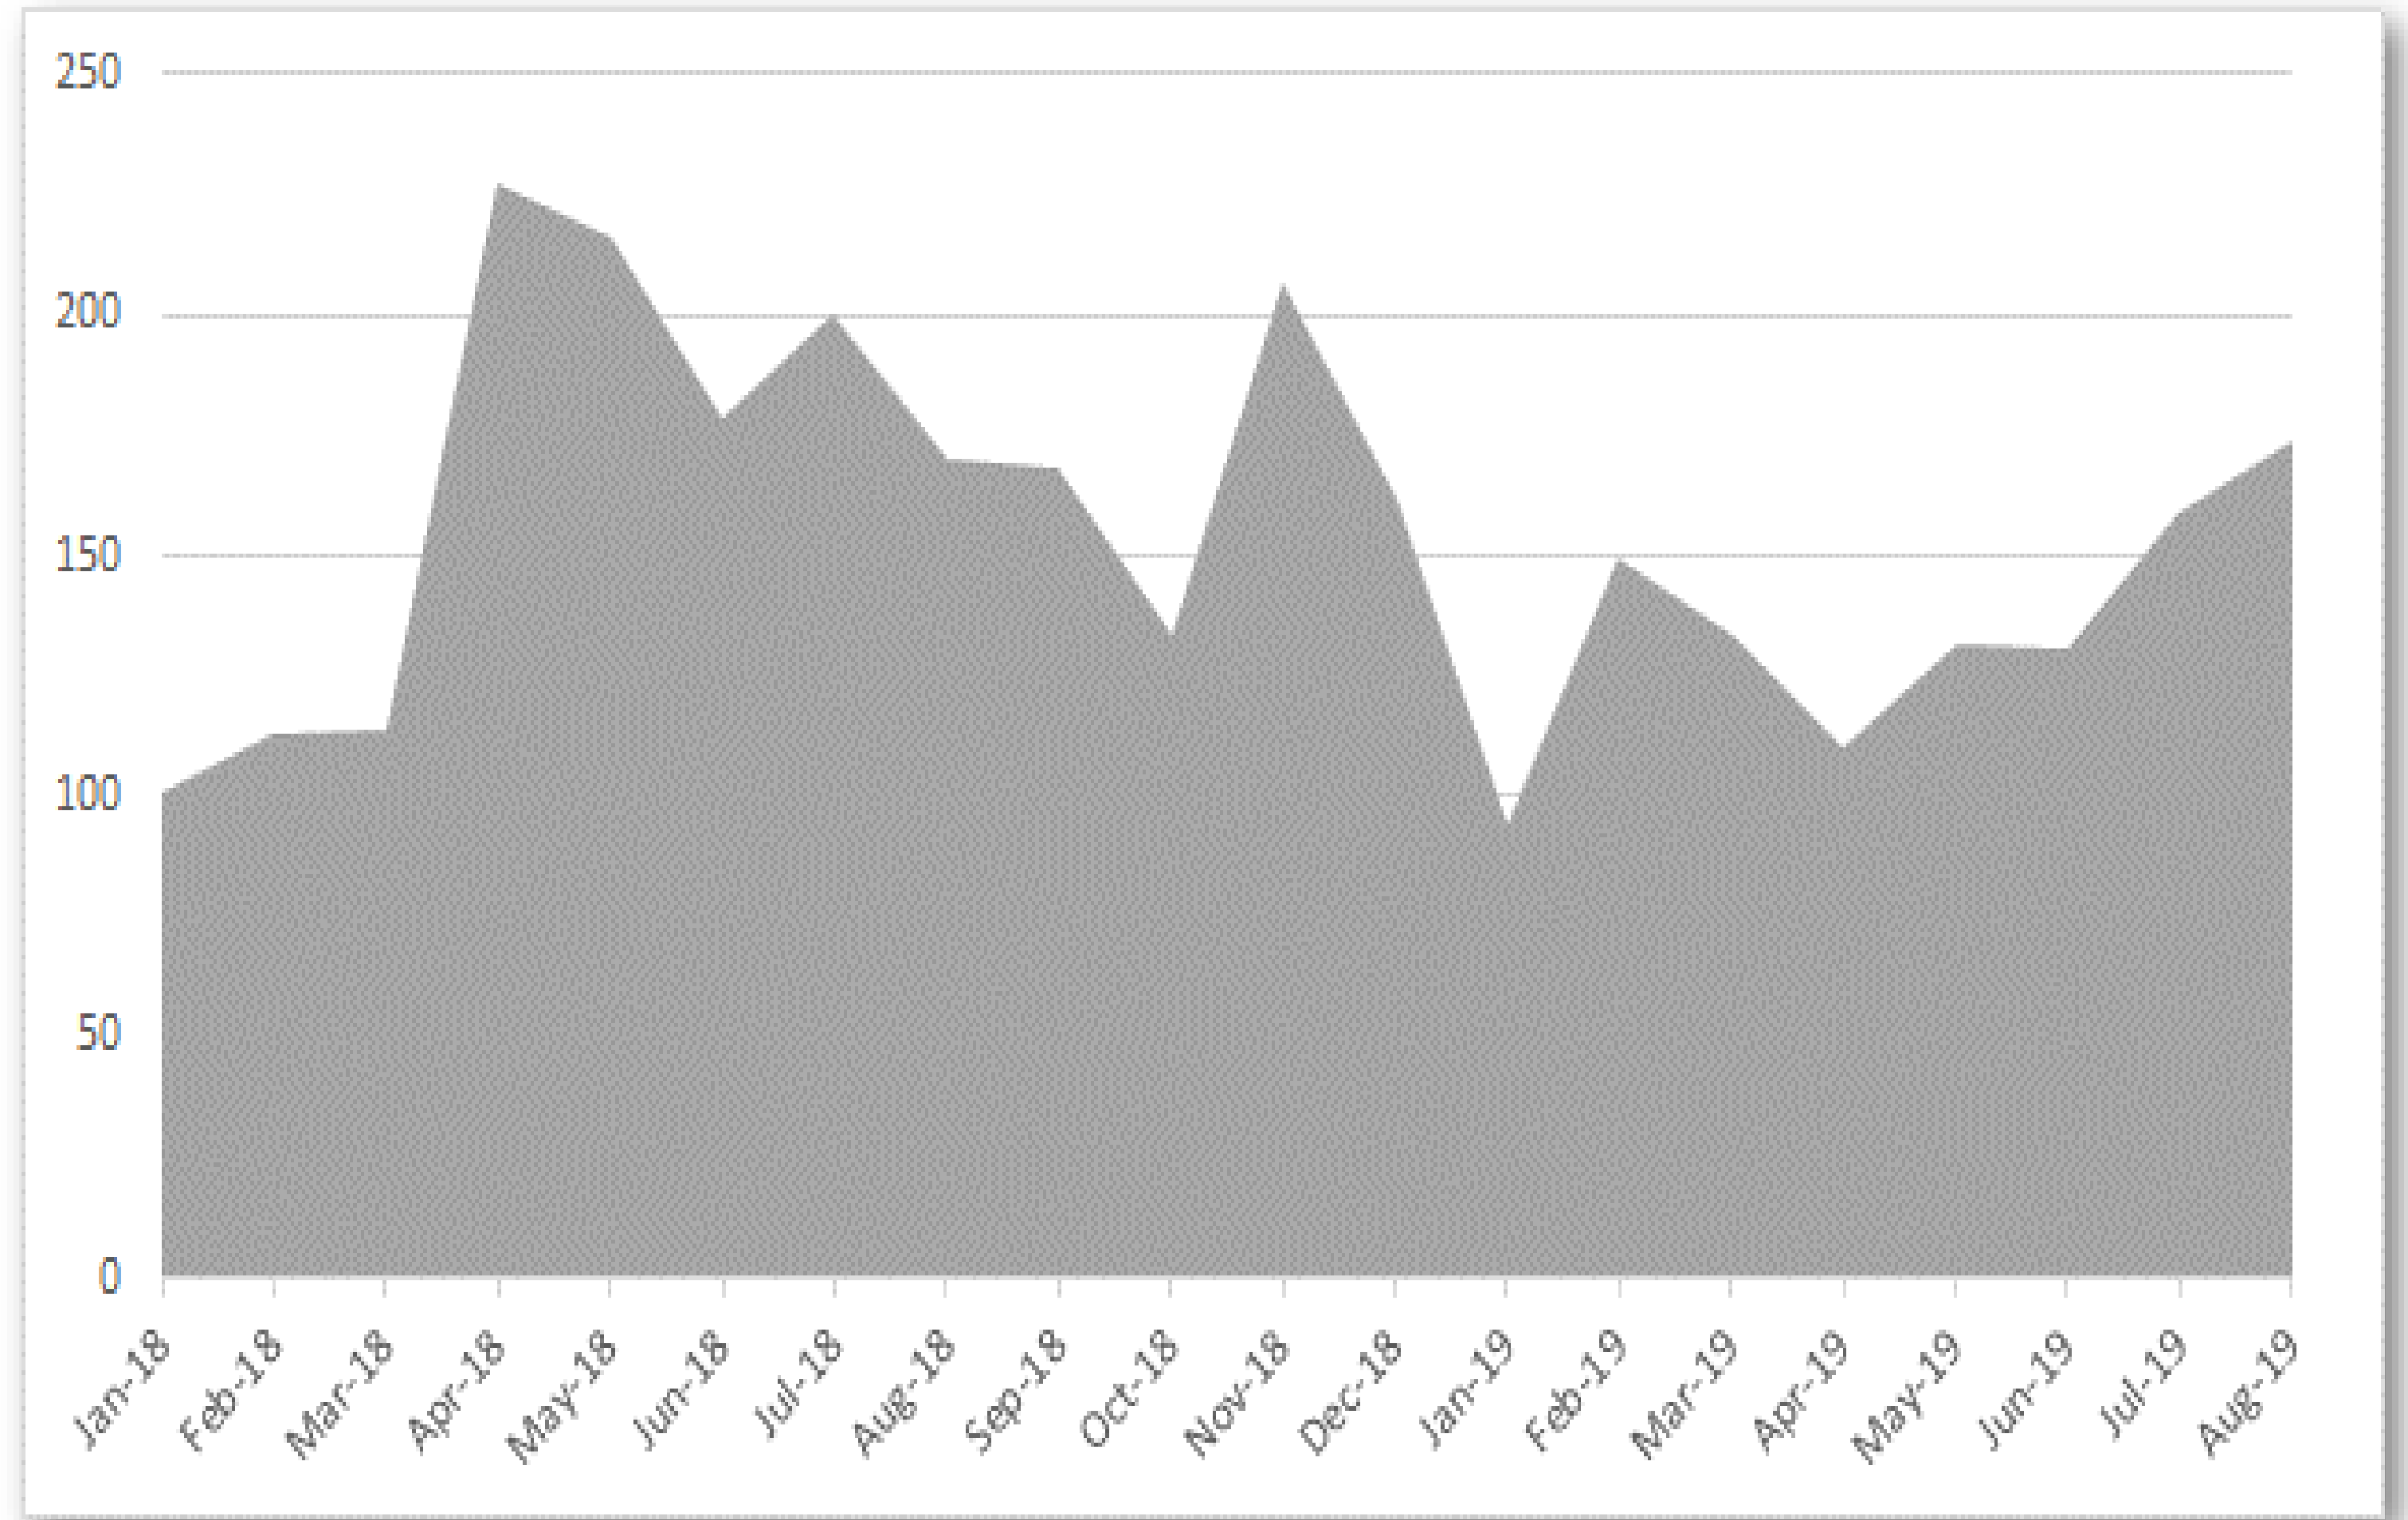

Counter fraud

MCS informing closure policy

GSHP installations registered with MCS

No obvious trend
other than seasonal

More work to do to engage consumers
what can MCS do?

Each Home Counts

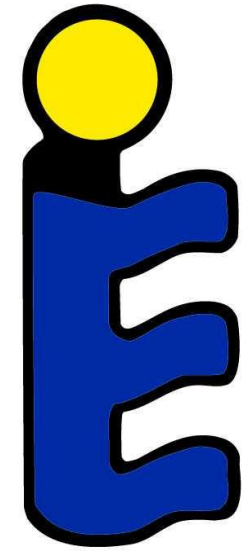

An Independent Review of Consumer Advice, Protection, Standards and Enforcement for Energy Efficiency and Renewable Energy

MCS - TrustMark

mutual recognition
property passport
certification and compliance route

Supporting the sector

Product certification equivalence
MCS - HP Keymark and Eurovent schemes launched this month

Umbrella schemes

improved guidance and compliance activities
negative connotations so new name required!

MCS forward look

Training & assessment initiative

MCS Charity funded

GSHPA and HPA supported

foundation course and product modules for air source, ground source and exhaust air

modules to include commissioning and basic fault finding

separates design from installation (and set to work + commissioning)

potential for MCS to maintain training materials and operate an approved trainer scheme

Scheme changes

Legislation restricting all but essential changes

Simplify and support

heat loss and performance calculations

SME contractor - consumer finance initiative

insurance backed warranties / consumer finance protection – new approach

Easy MCS because MCS isn't

Risk based approach to audits

clearer direction from Scheme to Certification Bodies
