

The Ground Source Heat Pump Association cordially invite you to attend an afternoon seminar on:

Harnessing the heat beneath our feet

An introduction to the benefits of ground source heat pumps to heat and cool your homes and businesses

on

Wednesday 10th May 2017

2pm to 4.30pm

@ The Rural Business Community in Seaton, Oakham (LE15 9HT)

The event is **free** and open to all local installers, plumbers, heating engineers, architects, building developers and building related contractors, or anyone interested in renewable energy wishing to gain valuable information from a group of experts in their field.

The experts:

- John Findlay of Rutland based Carbon Zero Consulting Ltd and Chairman of the Ground Source Heat Pump Association.
- Chris Davidson, who is only one of a few certified GeoExchange Designers operating in the UK.
- Kevin Cox, Contracts Manager of J. Tomlinson Ltd. who has considerable experience in installing GSHPs in a number of Housing Association developments.
- Alex Driver, Managing Director of Orangehouse Renewables with experience of installing ground source heat pumps in a wide range of domestic projects.

If you are interested in finding out more about ground source heat pump technology, please register to attend *Harnessing the Heat Beneath your feet* via email to jen.billings@gshp.org.uk or phone 07576 550877.

We hope you will be able to join us.
